

Divisibility by 3 and 5

DESCRIPTION

Write a program that takes a positive integer N and determines if it is divisible by both 3 and 5.

INPUT FORMAT

The input consists of a single positive integer N .

OUTPUT FORMAT

- If N is divisible by both 3 and 5, print: **YES**
- Otherwise, print: **NO**

Follow the output with a newline.

SAMPLE

Sample Input	Sample Output
30	YES
